

ATLANTIS HAIR

Exosome + PDRN + Scalp & Hair Growth Factors

WHAT IS ATLANTIS HAIR?

Discover the power of our 5th Generation Exosome Scalp Advanced Solution!
ATLANTIS HAIR is a premium blend of exosomes, PDRN, and scalp growth factors designed to nourish your scalp and stimulate hair growth.

Components

Exosome

High-Purity Exosome derived from plants (Ultra-Nano Particles about 500 million particles/ml)

- Enhances hair follicle growth
- Reduces inflammation and promotes hair follicle health

PDRN

High-Purity HPDRN made by French manufacturer derived from wild Alaskan salmon (High-Purity HPDRN 10,000 ppm)

- Reinforces the antioxidant barrier of the scalp
- Improves hydration and circulation of blood flow to the scalp
- Helps supply nutrients to hair follicles

Scalp Growth Factors

8 amino peptides and 5 natural enzymes

- Opens clogged pores and creates a healthier environment for hair growth
- Revitalizes and strengthens hair follicles

Benefits

**Enhances blood flow
to the scalp**

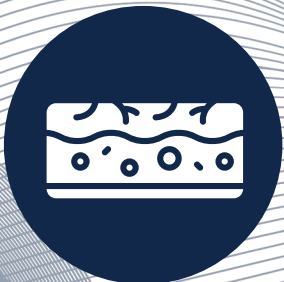

**Revitalizes and
nourishes hair follicles**

**Encourages
new hair growth**

Boosts hair thickness

**Resolves
dry scalp issues**

**Prevents
collagen degradation**

Treatment Procedure

**1 vial
per treatment**

**2 weeks
interval**

5 – 8 sessions

Preparation

STEP1. Sterilize the scalp with an alcohol swab or other aseptic solution.

STEP2. Apply anesthetic to the scalp area if required.

STEP3. Remove the applied anesthetic from the area and sterilize with an alcohol swab or other aseptic solution again.

How to use

1. Apply a sufficient amount of the solution to the entire scalp area to be treated.

2. Wait 1-3 minutes until the scalp is moist.

3. Drop the solution again and tap the scalp or perform AMTS to help the ingredients penetrate.
